The entertainment given by the Ladies Aid Society at McHenry on last Thursday evening was highly entertaining. The entertainment with two exceptions was entirely by the little folks, and consisted of songs, declamations, dialogues, etc. The little people sang their songs, said their speeches and recited their dialogues in a manner that was creditable to such young heads. The town trustees, at the instance of the board of health, have ordered the citizens of town at once cleanse their premises in order to prevent sickness. While this is a very good thing, the city fathers would not do well for the city fathers to look after some of our side walks.

I have some Osborne mowers and hay rakes that I want to exchange for good harness horses. Any one wanting a good mower and hay rake here is a good chance to get one or both cheap for cash or will take a horse and pay the difference in cash. Call at King's stable and see them. W. T. King.

**Civil Government Disfranchisement.**  
P. W. L. Hall, Jr., June 17, 1889.  
"Teacher" stridently on the State Legislature in last week's Herald are a few lines, but the intemperance of the Civil Government some of the branches to be taught in the common school, is a right matter. Ignorance of the fundamental principles of our Government is the source of all our troubles, and who are better educated about this, we will have less cause of complaint.

True, the time is little short to prepare for this new branch, but the teacher is supposed to know something more than the mere elementary rules of arithmetic, grammar, etc., and I take it that most of us will pass a very creditable examination in Civil Government next month.

The State Board of Education, as we understand it might, have introduced this branch in the examination of last year, but took the responsibility on themselves of deferring it to this year, and we are glad to see it.

Dr. J. S. Coleman's opening sermon, upon the subject of "Modern Sanctification," was perhaps one of the ablest efforts of his life.

H. C. THOMAS.

**TRISLER, KY.**  
June 15, 1889.—Owing to the scarcity of plants the tobacco crop of this vicinity is very limited; but few of the farmers are setting a fall crop. The wheat of this section is infested by a kind of bug, but it seems that they are not injuring it seriously. The crop will be very short.
